

Bluewater Wind Response – January 12, 2007

RE: Docket 06-241 Bid Information

Dear Mr. Howatt:

Please accept this letter on behalf of Bluewater Wind Delaware, LLC ("Bluewater Wind") in response to your January 8, 2007 email regarding the above-referenced docket number as it relates to the disclosure of bid submissions.

As requested by the Public Service Commission ("PSC"), Bluewater Wind will provide the PSC no later than the requested date of January 24, 2007 an electronic copy of the bid submissions that we made in response to Delmarva Power and Light Company's November 1, 2006 Request for Proposals, without the documents or sections of documents that were marked confidential and/or proprietary in its original submission.

Bluewater Wind appreciates the PSC's consideration of whether to post these revised copies of the bid submissions on the PSC website and we will support whatever decision the PSC reaches. Our greatest interest, and one that we are sure is shared by all bidders, is that the posting not have the potential to affect Delmarva's and the State Agencies' fair and balanced consideration of the bid proposals. In addition, Bluewater Wind supports a posting policy that provides the public with an opportunity to review thoroughly the bids and the differences between them.

Thank you for your consideration of these important matters.

Please feel free to contact me if you have additional questions.

Sincerely,

Peter D. Mandelstam, President
Bluewater Wind Delaware, LLC
